MENTORING PROGRAMS OFFERED:

Community-Based Program

Approved community-based Bigs may go to the Little's home to provide transportation for the Littles for BBBS match outing. Matches typically get together two times a month to engage in activities they enjoy. Matches typically meet on days and times that are convenient to them.

Peer to Peer Program

In partnership with Columbus, Youth Camp, Northside Middle School, and BCSC . The approved North High School mentors will walk over to Northside Middle School once or twice per week to meet with their Little. Matches will meet during the student's resource period, and will have planned activities structured around the Developmental Assets.

Site/School-Based Program

Parents and youth enrolled in this program can choose an adult mentor or high school mentor. Bigs and Littles meet consistently during the school year, once per week. Matches typically meet during the Littles's lunch and recess time.

Site-Based Plus Program

Through a partnership with Cummins this program offers an innovated way to match Cummins volunteers with children who attend the Boys and Girls Club, who prefer to be matched with a community-based Big Brother or Big Sister. In addition to meeting in the community, this program enhancement provides matches the opportunity to meet at Foundation For Youth twice a month for scheduled, fun-filled activities lead by staff.
